

forum European Maritime Space Forum

On 16 May

The second European Maritime Space Forum will be held in Szczecin, Poland, on Friday May 16, under the patronage of the Polish Minister of Infrastructure. This flagship event will bring together experts, political decision-makers and representatives of the maritime industry, including HAROPA PORT, to discuss the challenges and opportunities facing European shipping.

Published on 8/04/2025

At this event, Tommaso Spanevello will be taking part in **apanel discussion** entitled **"EU Policy Measures Regarding Maritime Cybersecurity"**. This session will explore EU policy initiatives aimed at strengthening digital systems security in the maritime sector, a critical issue in a context of increasing digitalization.

He'll highlight best practices and priorities for the future, taking into account technical, economic and regulatory challenges, and he'll share HAROPA PORT's expertise in cybersecurity.

Did you know? The European Maritime Space (EMS) is one of the horizontal priorities of the Trans-European Transport Network (TEN-T). This strategic program aims to improve the connectivity and efficiency of transport infrastructures on a European scale.
